SUMMARY

Agile Frontend developer with three years of experience building thoughtful, responsive web applications using React, Next.js, and Tailwind CSS.
I enjoy turning complex ideas into clean, scalable code, and I work closely with design and UX teams to ensure consistency, clarity, and performance at every layer of the interface. My focus is on writing maintainable systems that age well.
I'm seeking a frontend role where I can deepen my work with React, TypeScript, Tailwind, and Next.js, contribute meaningfully to high-impact products, and intentionally grow toward a DevOps-leaning engineering path within a fast-moving, thoughtful team.

EXPERIENCE

NGBookings.com Limited
Frontend Web Developer

Lagos, Nigeria
June 2025 - Present

- Developed and maintained user-facing features across all four platforms—Guest, Travel Agent, Partners, and Admin, using Next.js to deliver fast, scalable, and SEO-optimized web experiences.
- Collaborated with backend engineers to integrate RESTful API endpoints, ensuring smooth data flow, accurate functionality, and platform-wide consistency while working within a large, cross-functional team.
- Implemented responsive, accessible, and performance-driven UI components, improving user experience across different devices and meeting evolving business and product requirements.
- Adapted quickly to new tools and technologies, continuously expanding technical skills to support feature development, platform enhancements, and ongoing optimization needs.
- Worked closely within an Agile/Scrum environment, meeting sprint deadlines, participating in stand-ups, and ensuring timely delivery of features, bug fixes, and platform improvements.

Zenon
Frontend Web Developer (Contract)

Lagos, Nigeria
June 2025 - October 2025

- Assigned to develop and enhance an e-commerce platform that connected dealers with customers, enabling seamless product ordering and delivery through an integrated rider network.
- Collaborated with UI/UX and backend teams using Jira and Git, ensuring efficient workflow, continuous deployment, and version control throughout the project's lifecycle.
- Implemented and maintained feature enhancements for the customers module using React.js, ensuring integration with RESTful APIs and consistent application performance.
- Utilized Redux to implement efficient site-wide state management, promoting data consistency across React.js components.
- Refactored the customer module's frontend interface using React.js and Tailwind CSS to align with updated UI/UX specifications.
- Enhanced user interface responsiveness for the customers module by integrating modern UI components and refining user flows to improve engagement and accessibility.

PureJim Ltd
Junior Frontend Developer

Lagos, Nigeria
September 2023 - January 2025

- Developed and maintained responsive web applications using React.js, Next.js, and Tailwind CSS.
- Optimized web applications for maximum speed and scalability.
- Participated in code reviews, contributing to improved code quality and team knowledge sharing.
- Implemented Agile best practices to improve task prioritization and project flow in a continuous development cycle.
- Integrated RESTful APIs to support dynamic data rendering, enhancing user interaction by 30% through consistent cross-platform performance improvements on web applications.

Darey.IO
Frontend Developer Intern

Lagos, Nigeria
August 2023 - December 2023

- Assisted senior developers in adding features and fixing bugs on the website.
- Mentored by senior developers, accelerating skill development in React.js and Angular through hands-on projects and collaborative problem-solving sessions.
- Developed and deployed new interactive components using React.js, enhancing user engagement on the main website by 25% while ensuring seamless integration with back-end services and maintaining code efficiency.

PROJECTS

EasySch School Management System
PureJIM LTD • //www.easysch.com/best-college/login

September 2023 - January 2025

- Developed and maintained responsive web applications using React.js, Next.js, and Tailwind CSS.
- Collaborated with design teams to implement user-friendly UI/UX designs.

- Optimized web applications for maximum speed and scalability.
- Participated in code reviews, contributing to improved code quality and team knowledge sharing.

AttendEASE   July 2024 - April 2025
Personal
- Engineered Attendease application to effectively monitor student attendance data leveraging React.js and Node.js technologies
- Integrated a dynamic reporting module in the AttendEASE system, enabling real-time analysis of attendance patterns and enhancing data-driven decision-making for educational institutions.
- Enhanced the AttendEASE platform by incorporating automated attendance reporting features, improving data accuracy and reducing manual processing time by 25%.

Shop&Go   June 2025 - October 2025
Zenon   https://zenon.systems
- Implemented new features and maintained the Customers Module using React.js, integrating RESTful APIs to support real-time data exchange and ensure stable application performance.
- Applied Redux for efficient global state management, ensuring consistent data flow and synchronization across all React components.
- Refactored and modernized the Customers Module UI using React.js and Tailwind CSS, aligning the interface with updated design specifications and improving code maintainability.
- Enhanced user experience and accessibility by integrating modern UI components, optimizing responsiveness, and refining customer interactions and user flows across the platform.

NGBookings.com   June 2025 - Present
NGBookings.com Limited • ngbookings.com/
- Built SEO-optimized Next.js pages to improve organic visibility and reduce page load time for guests searching for hotels or travel deals.
- Implemented reservation management features, allowing agents to view, modify, and track bookings using responsive data tables and reusable components.
- Optimized dashboard UI/UX, improving clarity of stats, bookings, and earnings at a glance.
- Integrated forms and validation systems to ensure clean, accurate partner data before sending to backend endpoints.
- Improved performance of partner analytics pages using React memoization and efficient state updates.
- Worked in a large, fast-paced Scrum team, participating in daily standups, sprint planning, and sprint reviews.
